The Omni Youth Circle program is combating Mental health and Violence within today's youth. We are counteracting this issue by starting this enrichment program and bringing it to become a youth center in-between now and the near future. "Studies have shown that youth centers and enrichment programs are effective in addressing mental health concerns and violence within young adults." (co/Gemini/share.com, 2024) "Mental Health issues can impact a teens life by affecting their academic performance, social interactions, relationships, self- esteem and their well-being."(www.who.int, 2025) This can lead to struggles with concentration, and mood swings," which can eventually lead to violence to some capacity. (www.youth.gov, 2025)
